ASEAN PLUS THREE TOURISM STUDENTS SUMMIT 2014

IN THAILAND

19 - 26 OCTOBER 2014

WWW.FACEBOOK.COM/APTTSS2014

(2) Dear Delegates from 13 countries, ladies and gentlemen.

(3) Welcome to the ASEAN Plus Three Tourism Students Summit 2014 organized by 3 organizations which consist of the Ministry of Tourism and Sports (MOTS) of Thailand , the Suan Sunandha Rajabhat University and Foundation for International Human Resource Development (FIHRD).

I hope all of you have a good flight and pleasant stay in Thailand.

(4) I would like to thank the Ministry of Tourism and Sports (MOTS) of Thailand and the Suan Sunandha Rajabhat University for joint efforts

(5) The theme is
“Leadership and Youths’ Roles
in Tourism Development for
ASEAN Plus Three (APT)”

(6) As all of you know, tourism sector in ASEAN+3 countries, are very important to our economy, employment and income distribution because income from tourism go to the majority of population in our countries.

(7) For example, income for tourism from Thailand goes to rural people and income inequality in Thailand is improving compared to other sectors, like industrial sector, income maybe high, it goes to multi-national companies. So the key word is tourism sector will improve our income distribution in our ASEAN countries. For example our friend from Myanmar.

In Myanmar, after opening the country, tourist arrival goes up fast, about 30%.

(8) Now, all of you, what will be an objective of getting together in Thailand for 8 days;

- ✓ First, besides 10 ASEAN countries, we will have opportunities to work and be friends with plus 3 countries; China, Japan and Korea.
- ✓ Second, we must develop a certain theme which we work together for a long run, especially after you leave.

(9) Compared to my work last time in NACC ASEAN Anti- Corruption Youth Camp, we develop ethical capital as a theme.

For us, ethical capital still important, because without ethics, you cannot do well in any sector, but for us we should add 3 more important aspects of human capital;

First, it is social capital and networking – leader will develop networking among one another. The key is that with diversity of culture and way of thinking, we must make networking into value diversity, turn diversity into harmony. Young generation will deal and confront diversity but diversity must lead to harmony

My second, there is sustainability and the mean to get to sustainability is sustainability capital.

Gathering among leaders in ASEAN+3 will discuss tourism in sustainable way – but may I suggest few ideas;

- Think short – term to be able to reach long – term adjectives. For example, what will be the future of Bali in 20 years from now, we can ask some questions for Samui in Thailand

- Keep tourism resources to next generations, when all of you turn 40, I hope natural resources and culture of countries will be the same of good quality and finally, we need to add value to our tourism sector, I think creativity + innovation + digital capital will be the key to our future

For example, if France has 70 millions tourist arrival, now we in ASEAN can do the same but we have to be have strategies about the future such;

- **Cultural tourism**
- **Working as a team in ASEAN+3 tourism joint projects**
- **Joining research on the future**
- **Green tourism / Safety tourism**
- **Community based tourism**
- **Sport tourism**
- **Agro-tourism**
- **Medial tourism**

In conclusion, I only suggest for ideas, but the summit belong to you, you are free and be creative to suggest new ideas, but ideas must have practical results and good luck to all of you
